Seek Thermal engineers, designs and manufacturers high quality thermal imaging products and core platforms for consumer and commercial applications.

Founded by industry pioneers who spent 40 years advancing the state of military and professional-grade thermal technologies, Seek Thermal has developed a new breakthrough series of thermal imaging cameras that are designed for your smartphone.

Heat the house. Not the neighborhood.

Nothing spots energy drafts and missing insulation faster than Seek Compact. Connect the camera, tap the app, and Compact's advanced thermal sensor lets you pinpoint energy loss throughout your home. To save valuable energy and money, look no further than Seek Compact.

Spot Thermography

Before you can fix it, you've got to find it.

Quickly diagnose electrical overloads and shorts with the powerful, portable Seek Compact. Using over 32,000 thermal pixels, Compact delivers a "best-in-class" detectable range of -40° to 626° Fahrenheit. To find and fix faster, Seek Compact is the sharpest tool for your toolbox.

Seek first. And spot leaks faster.

Take aim, adjust the focusable lens, and uncover clogs and hidden leaks with more confidence. Whether you're a professional tradesman or a DIY addict, Seek Compact's military-proven technology delivers the thermal insight you need to save time and work smarter.

Seek. And see the danger before it sees you.

Keeping out of harm's way is a whole lot easier when you can see in the dark. By allowing you to spot people and animals even on the darkest night, Compact delivers greater peace of mind. With Seek Compact, the entire world is a light bulb.
