COMBO - Smoke and Carbon Monoxide

\$62.99
reg. 69.99

10yr WORRY FREE

\$59.99
reg. 64.99

I12010S-CO-CA
Hardwire 10-Year Worry Free Ionization Smoke & Carbon Monoxide Alarm. Sealed lithium battery backup. Voice warning system.
120V AC

900-0213
Front-Loading Smoke and Carbon Monoxide in one unit. This AC-wire with battery backup alarm emits a beeping tone followed by a voice warning that clearly announces the danger by saying, "Fire!" **120V**

Talking Voice Message

\$57.99
reg. 61.99

10yr WORRY FREE

\$47.99
reg. 51.99

\$54.99
reg. 59.99

900-0119
Hardwire Ionization Smoke & Carbon Monoxide Alarm. With battery backup. Talking voice messages with sounding alarm identify different dangers. **120V AC**

900-0220
Battery Operated Smoke and Carbon Monoxide Detector. Battery powered: AA batteries included. Test/Reset Button, talking alarm and low battery indicator

P3010L-LCO-CA
Combo CO/Photoelectric 10yr sealed lithium battery alarm. Hush & test button, tamper-proof.

CARBON MONOXIDE

\$39.99
reg. 44.99

10yr WORRY FREE

C3010-CA
10-Year Sealed Lithium Battery Carbon Monoxide Detector. LED display feature.

\$31.99
reg. 36.99

\$29.99
reg. 34.99

900-0235
120V Plug-in battery backup Carbon Monoxide alarm. Tamper resistant, test & reset button.

900-0233 9V
Carbon Monoxide alarm. Tamper resistant, test & reset button.

\$31.99
reg. 34.99

900-0215-005
Plug-in Carbon Monoxide Alarm. Battery backup. Test/reset button. Tamper resistant unit alarms when removed from wall outlet.

\$51.99
reg. 56.99

900-0076-05
Plug in carbon monoxide alarm with digital display, battery backup

Multigas

\$63.99
reg. 69.99

900-0113-05
Plug-In Carbon Monoxide Propane Natural Gas Alarm with Battery Back-up

\$10.99
reg. 12.99

R9VL-1 - 9V Lithium Ion Battery- With 10 year service life, these batteries last much longer than alkaline, making them ideal for smoke detectors and home security.

What are the dangers in the home?

Carbon monoxide can be generated from any fuel-based home appliance. These include stoves, barbecues, fireplaces, furnaces, water heaters, lawn mowers, power generators and tobacco smoke.

Smoke & Carbon Monoxide Detectors

What precautions can I take?

Health Canada says every home should have at least one carbon monoxide detector. Location for a detector would be hallways outside bedrooms, since noise from the alarm could wake up occupants in case of emergency. Only buy detectors that have been approved by either the Canadian Standards Association or the Underwriters Laboratories of Canada. The Centers for Disease Control and Prevention in the United States says CO detectors should be replaced every five years.

IONIZATION - Responds first to fast, flaming fires.

\$34.99
reg. 39.99

I12010S-CA
10-Year Worry Free Ionization Smoke Alarm. Tamper resistant. Interconnectable. **120V Hardwire with Battery Backup.**

10yr WORRY FREE

\$29.99
reg. 32.99

0910KCA- 10 Year Tamperproof Smoke Alarm- 9V Lithium Battery operated. Tamper resistant with test and hush button. With Lithium Ion batteries no need to buy and replace batteries, simply replace unit.

10yr WORRY FREE

\$11.99
reg. 14.99

1235CA- Smoke Alarm- 120V Direct Wire in. With test and Smart Hush button. Quick connect wiring, and is inter connectable.

\$19.99
reg. 24.99

1275CA- Smoke Alarm- 120V Direct Wire with 9V battery backup. With test and hush button. Low battery indicator, and inter connectable.

\$24.99
reg. 29.99

1276CA
Hardwire Smoke Alarm, Ionization Technology, 120V AC Direct-Wire. 9V Battery Backup (included), Test Button, Hush® Button and Tamper Resistant.

Kidde and AMRE Supply want to help keep you and your family safe!

10 YEAR Worry free

"Update your alarms to 10yr sealed lithium battery units to save time and money!"

\$14.99
reg. 17.99

0916KCA- Smoke Alarm- 9V battery operated. With test and hush button. Low battery indicator. Fast installation.

PHOTOELECTRIC - Responds first to slow burning fires with thick smoke but little heat

\$21.99
reg. 24.99

PE9KCA
Battery-Operated Photoelectric Sensor Smoke Alarm. Advanced photoelectric sensor is especially effective in detecting smoldering fires. 9V battery included.

\$26.99
reg. 29.99

PPE120CA
Hardwire Photoelectric Smoke Alarm with Battery Back-up. 120V AC Direct-Wire.

\$34.99
reg. 36.99

P3010K-CA
Photoelectric 10yr sealed lithium battery smoke alarm. Hush & test button. Tamperproof

Signs of carbon monoxide poisoning

Headaches Nausea Dizziness Breathlessness Collapse Loss of consciousness

What are the symptoms of CO poisoning?

Early warnings of CO poisoning include headaches, fatigue, flu-like symptoms, shortness of breath and impaired motor functions. If exposed to low levels of the gas over a long time, the symptoms can include chest pain, poor vision and dizziness.

Carbon monoxide is a colourless, odourless gas and can accumulate whenever fuel is burned. Common fuels include wood, natural gas, oil and propane. It is readily produced by internal combustion engines.

Why is it so dangerous?

If allowed to accumulate, it can **fatally starve the human body of oxygen.** Hemoglobin, the oxygen-carrying protein in the bloodstream, normally has a spot reserved for the oxygen molecule. Carbon monoxide binds to that spot instead, preventing oxygen from being effectively carried to the rest of the body. High exposure to carbon monoxide can be fatal. According to Statistics Canada, almost 50 people per year die in Canada from this preventable danger.
