FREIGHT POLICY CHANGES

Effective: January 13, 2022

To Our Valued Customers,

Since the beginning of the COVID-19 pandemic, global product demand has caused an increase to the volume of shipments travelling through the freight channels daily. For our freight and logistics partners to accommodate the increased volumes they are experiencing, they have implemented price increases. This has allowed these companies to expand their networks and add resources allowing shipments to be delivered more efficiently across Canada. Additionally, rising costs of fuel has left companies facing significant challenges to overcome within the logistics channels.

Due to these increased costs, please be advised that AMRE Supply will be increasing our flat rate freight charge from \$12.99 to \$13.99 for those located within the Canadian Provinces. This change will be in effect starting January 13, 2022.

There will be no changes to the \$34.99 flat rate freight for Canadian Territories including NWT, Yukon, & Nunavut.

We at AMRE Supply Canada Inc would like to thank all customers for your continuing support as we navigate through this period of change and growth. If you have any questions or concerns about this change, please feel free to contact your local AMRE Supply representative.

Sincerely,
AMRE Supply
