# No Worries. No Surprises.

Water Leak Detection with Damage Prevention

## Resideo L5 WiFi Water Leak Shutoff Valve

Whether out of town or out for the evening, the Resideo Braukmann L5 WiFi Water Leak Shutoff Valve responds to water alerts with an automatic shutoff response, helping safeguard your belongings and the home's structure from potential costly repairs.

### Key Features

- Water Leak Detection and Automatic Shutoff Response
- 5 ft Water Leak Detector Cable
- Resideo App for Notifications and Alerts

<b>VWS02Y-1/2</b>	1/2" NPT Ball Valve
<b>VWS02Y-3/4</b>	3/4" NPT Ball Valve
<b>VWS02Y-1</b>	1" NPT Ball Valve
<b>VWS02Y-1 1/4</b>	1-1/4" NPT Ball Valve

Automatically shuts off the water line when water is detected.

## Day and night protection - from anywhere

Ideal for people  
who own or manage a  
second property, such as  
a vacation or rental home

### Resideo L5 Braukmann WiFi Actuator VB-SP02Y-002

#### Key Features

- Water Leak Detection and Automatic Shutoff Response
- 5 ft Water Leak Detector Cable
- Resideo App for Notifications and Alerts
- Add additional cables to extend the sensor length to 500 feet.

#### Alerts You and Others

When a water leak is detected, you can have alerts sent to your phone to manage water when you are away. You can also assign alerts to anyone. This can be especially helpful if you own or manage a second property or need to notify your plumbing pro automatically.
