

Closet Auger

Six Foot Teletube™

Makes conventional six foot augers obsolete, because it has three feet telescoped into a guide tube until you need it. After you've worked the first three feet into a bowl, you can go three feet farther simply by pressing a button and pulling the crank handle.

Outer tube is a big 1 1/8" in diameter; guide tube is even tougher than the steel rod we use in our 3FL closet augers. Teletube weighs just a little more than a 3FL.

Other features include vinyl bowl guard, vinyl grip handle, die cast aluminum turning handle, and "Grip Clip" for attaching cable.

Catalog Number		Weight Pounds
T6FL	Down Head	5-3/4
T6FL	Regular Head	5-3/4

DOWN HEAD
Patent No. 2,779,041
