

Installation Instructions for Side Splash Shields

Service Kit number 154701001

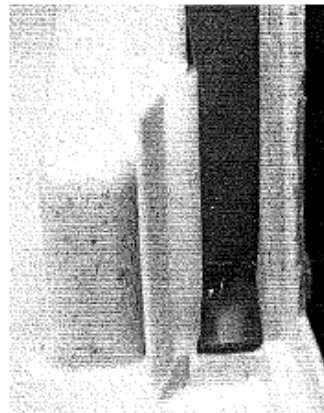

Parts in kit 2 154685101 Shields
 1 154701101 Instructions

1. Open door and remove lower rack from tub
2. Lift tub seal from bottom of tub and up side channel 3 to 4 inches
3. Place side splash shield all the way to the bottom of side channel with rubber end toward the center of the tub

4. Press shield all the way into the back wall of the channel by using a flat blade screwdriver. The rubber end should not block the rail for the lower rack
5. Reinstall seal first into the square block located in the bottom of the tub then up the channel.
6. Repeat for the opposite side of the tub.
