# AIR COMPRESSOR OIL

**DESCRIPTION:** The material covered by this specification is a non-detergent 30W air compressor oil, formulated to lubricate and protect air compressors operating in an ambient temperature range of 250 to 1200F. AGS AIR COMPRESSOR OIL is a superior lubricant containing an anti-wear agent, with corrosion and oxidation protection. Long, trouble-free service is assured under sustained high temperature and pressures. AGS AIR COMPRESSOR OIL has excellent water separation characteristics, water separates readily from the oil for drain off during regular maintenance.

**APPLICATION** The material is formulated for optimal performance to reduce the carbonization, which can occur using multi-viscosity oils. AGS AIR COMPRESSOR OIL is recommended for all piston-type air compressors.
