DIRECTIONS FOR USE

All surfaces must be dry and free from hardened putty, dirt, wax, oil and grease. Remove debris by wiping with cloth, scraper or wire brush as needed and dry surface. Knead putty in hands and form a long cord-like shape. Lay out the cord-like putty on the surface to be sealed, overlapping the ends. Place the fixture over the bead, attach and secure the fixture in place. Excess Plumber's Putty should squeeze out from around the fixture ensuring sufficient putty has been applied and a continuous seal has been made. Remove excess with a putty knife.
