Fax Number: 410-534-2650

Product Description:

DAP® All-Purpose Stucco Patch may be used to repair small holes and cracks in interior and exterior stucco surfaces. Its ready to use sanded formula blends naturally with existing stucco for a professional finish.

Suggested Uses:

For patching small holes and cracks in stucco surfaces.

Surface Preparation & Application:

1. Surface must be clean, dry and free of loose paint, plaster, wax, dust and dirt.
2. Apply stucco patch with a clean putty knife or trowel. For fills over 1/4" deep, apply 2 or more layers allowing each layer to dry before applying the next one.
3. Use a rubber float to blend patch with the existing stucco surface.
4. Store the tightly sealed container in a cool, dry place for re-use.

For Best Results:

- Consult paint manufacturer's recommendations before decorating. To repair large breaks, cracks and holes in stucco surfaces, use DAP® Stucco Patch Dry Mix.
- Can be painted after final cure (3 days).
