## String Wound Sediment Filter Cartridges

Rainfresh SW series sediment filter cartridges remove dirt, rust, sand, silt and other particulate matter from water. Featuring a string wound construction SW series cartridges are ideal for residential whole-house filtration, RO pre-filtration, food & beverage, commercial and industrial applications.

SW series filter cartridges are manufactured using 100% food-grade polypropylene. No additives or binders are used during the manufacturing process, resulting in a pure product that does not leech out extractables in during use.

SW series filter cartridges exhibit high dirt holding efficiencies at the rated micron size and low pressure drops with excellent flow characteristics

### BENEFITS

- **Efficient sediment removal over long life**
- **Low differential pressure**
- **Excellent filtration characteristics**
- **Universal Fit - Fits most standard 10" filter housings**

### FEATURES

- Made up of premium grade polypropylene.
- Highly effective in reduction of particles at rated micron size.
- UNIVERSAL FIT – Fits most standard 10" filter housings
- Resistant to media migration even under high differential pressure.
