Fluidmaster®

400LS

LEAK SENTRY® TOILET FILL VALVE

The proven performance of the 400A with the added benefits of water-saving technologies.

**New
& Improved!**

**AUTOMATICALLY
SAVES
WATER
2 WAYS!**

The Leak Sentry® device alerts you to an internal toilet leak and prevents water waste until the flapper is replaced.

The refill adjuster allows the right amount of water to be delivered to the bowl. Too high a refill to the bowl wastes water down the drain. Too low can cause an improper flush or sewer gas to leak into the room.

One leaky toilet tank can waste hundreds of gallons of water per day. Just imagine how much water all of your toilets could waste! Step up to your first line of defense against high water costs. The 400LS fits all brands of toilets.

**5 YEAR
WARRANTY**

TOP 10 REASONS TO BUY A FLUIDMASTER® LEAK SENTRY® FILL VALVE

1. The **FIRST**, the **BEST** and by far the #1 selling water-saving fill valve on the market.
