Braided Stainless Steel Water Supply Connectors for Dishwashers

Sizes: 3/8" to 3/4" (10 to 19mm)

Series CDC-S Braided Stainless Steel Water Supply Connectors for Dishwashers are used in residential and commercial applications, specifically for hookups to the dishwasher water supply. These connectors provide full flow capacity, protection from vibration and bursting under extreme pressure surges, and superior resistance to chlorinated water. Series CDC-S connectors consist of PVC tubing jacketed with braided stainless steel and come with elbow fittings. Various end connections are available.
