

WH07X10016 Drive Pulley Kit

ATTENTION SERVICE TECH

Contents:	Drive Pulley	WH07X10016	1 each
	Nut M16	WH02X10211	1 each

YOU MUST USE THIS NEW NUT

When installing the new pulley, use the new Nut to prevent the pulley from working loose from the basket shaft.

The nylon thread-locker in the Nut gets damaged when you remove the Nut.

SEATING TORQUE for the Nut is 44 ft-lbs
(approximately 1/4 turn after snug)
