

DAFCO FILTRATION GROUP®

- Heavy duty commercial/ industrial grade air filters
- Thermally bonded frame
- Wide range of standard and custom sizes
- Available in 1/2", 1", and 2" thicknesses
- UL 900 Class 2

DISPOSABLE FILTERS

DESCRIPTION

Disposable filters are manufactured with the highest quality components. You are assured of high performance and dependability. The frame is thermally bonded to media and facing. The filter media is constructed of continuous unrespirable strands. The glass fibres are encapsulated in a polyester coating to maximize particulate retention.

BENEFITS

The media, which is coated with a dust gathering material, fosters particle accumulation by size to maximize filter service life and efficiency. Rugged construction gives maximum performance and reliability, even under adverse conditions.

APPLICATIONS

Disposable filters are designed for use in retail, commercial and industrial applications where disposable panel filters are recommended. Safe and efficient, these filters are available in standard and custom sizes.

DISPOSABLE FILTERS

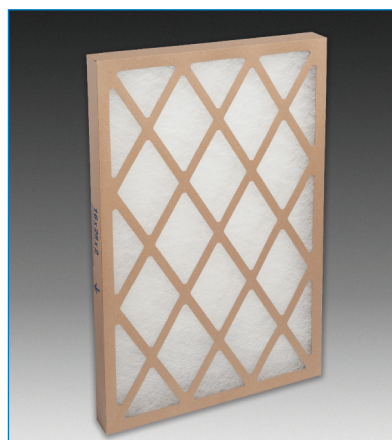

SPECIFICATIONS

Disposable filters are available in a variety of standard and custom sizes in three different thicknesses. Filters are designed for velocities to 350 fpm. All filters are Classified by Underwriters Laboratories as to flammability only.

DIMENSIONS

PART NUMBER	CODE	ACTUAL DIMENSIONS*	CASE QTY
10003	DISP 1220-1	11 5/8 x 19 5/8 x 3/4	12
