Servicer:

This kit was created to insure a matching set of knobs for the range. The knobs may be cosmetically different from the original knobs on the product due to the unavailability or standardization. In some circumstances, this kit may contain an additional thermostat knob that is not required depending on the model. If so, it can be discarded.

NOTE

Some models will not have the "SIM" and "WARM" settings shown on the valve knobs. Valve knob (part # 7733P027-60) can be ordered if necessary to omit these settings.
