

# Industrial Vinegar

## Industrial Cleaning Vinegar

Vinegar is a popular alternative cleaner due to its level of acidity. It's an economical replacement to avoid using harsh chemicals. Contains 5% acetic acid.

### Multiple Use

It is especially effective in removing inorganic soils and mineral deposits such as hard water films. It is also effective against a broad range of bacteria, destroying or reducing these organisms to acceptable levels.

### Mold and Mildew Remover

The acetic acid in vinegar kills mold and mildew, and also inhibits the growth of future mold and mildew.

### Available Size

**Code:** 53550 (4 L)

### Directions

Mix according to the dilution rates mentioned below with cold water.

### Dilutions

#### Applications

<b>Floor neutralizer</b>	1:40
<b>Glass cleaner</b>	1:50
<b>General cleaning</b>	1:8

*Note: Adjust rates to suit your cleaning needs.*

### Where to Use

Industrial Vinegar can be used to clean kitchen and bathroom surfaces as well as glass and windows. This non-toxic cleaner also deodorizes with no harsh fumes or unpleasant odours. It is ideal to remove mineral deposits from your kettle or coffee maker and to renew sponges and dishrags.

### Specifications

**Appearance:** Clear colourless liquid

**Odour:** Vinegar
