THE RIGHT CHOICE
Exclusive Master Distributor

* Subject to lifters' ability.
ProLift® up to 1000 lbs

800.333.9125

Moving appliances and equipment can pose many challenges. Maneuvering around stairways, doorways and tight areas can put strain on your body.

The ShoulderDolly® & ProLift® harnesses are ergonomically designed to allow two people to maintain the proper upright posture while lifting heavy objects by working through the legs and shoulders - while keeping your arms free.
