

Instruction Sheet

for Switch/Bracket

⚠ WARNING	
	<p>Electrical Shock Hazard</p> <p>Disconnect power before servicing. Replace all parts and panels before operating. Failure to do so can result in death or electrical shock.</p>

NOTE: When replacing original Switch & Bracket with new Switch/Bracket Assembly, notice the terminal and wire connections on switch being replaced.

The connections should be as follows:

BP1 – Black Wire

BP2 – Red Wire

BP3 – Brown Wire

IMPORTANT: The original Brown Bracket and Switch have the terminals as 1-3-2. See *Figure 1*

FIGURE 1

IMPORTANT: The new Switch/Bracket assembly has the terminal as 2-3-1. See *Figure 2*

FIGURE 2

NOTE: It is important to attach the correct colored wire to the correct numbered terminal, as shown above. Failure to do so could result in damaging the electronic controls.
