

LED WALL SCONCE – Single Unit

INSTALLATION INSTRUCTIONS

Read the installation instructions and all product labels before installing the fixture. This product must be installed in full accordance with applicable electrical and building. Installation should be performed by a qualified electrician in accordance with the Canadian national electrical standards and relevant local codes.

TO PREVENT ELECTRICAL SHOCK, POWER SHOULD BE TURNED OFF FROM THE ELECTRICAL PANEL BEFORE INSTALLATION OR MAINTENANCE

SAFETY WARNINGS:

- Read all product labels and directions.
- Turn off the electricity prior to the installation, inspection or removal of the fixture.
- Do not make or alter any open holes in an enclosure of wiring or electrical components during the installation.
- Make sure all connections are tight and that there are no loose strands.
- Do not make any open holes or alter an enclosure of wiring or electrical components during the installation.
- Suitable for damp locations.

INCLUDES:

	Single Unit
LED Wall Sconce fixture body	1
Mounting Bracket	1
Lens	1
M4x15 Screws	2
M4 Screw Cap	2
Wire Connector	3

Wiring instructions: Attach all wires inside the electrical box with the marrets that are provided. White wire of the supply with white wires of the fixture (N). Black wire of the supply with black wires of the fixture (L). Ground wire of the supply with ground wire of the fixture.

Installation instructions: (Illustrations on the back of the page)

1. Insert both 2 M4x15 Screws into the corresponding holes on the back of Mounting Bracket (A) (Fig. 1 - Step 1).
2. Screw the Mounting Bracket (A) onto the electrical box.
3. Follow the wiring instructions above and make all the connections.
4. Insert the LED Wall Sconce Body (B) on the fixed Mounting Bracket (A) (Fig. 2 - Step 2).
5. Add the M4 Screw Caps on both M4x15 Screws and tighten them (Fig. 2 - Step 3).
6. Choose between the glossy or matte finish of the lens.
7. Insert one side of the acrylic lens into the slot (Fig. 3 - Step 4).
8. Then bend the lens gently (Fig. 3 - Step 5).
9. Insert the other end into the slot (Fig. 3 - Step 6).
10. Once assembly is complete, switch on power to confirm the LED Wall Sconce is properly installed.
