

Victory Backpack Sprayer

Disinfecting with the power of electrostatic

About this product

You have a large task at hand? The Victory Backpack Sprayer boasts the same technology as his fellow electrostatic sprayer: the Victory Handheld Sprayer while allowing you to cover up to 23,000 ft² in one single tank. This cordless electrostatic sprayer allows you to spray your surfaces for hours at a time without the hassle of dragging a cord. It is designed to save time and labour, spray less liquid, and cover more surfaces evenly. Victory Sprayer's patent pending technology provides an electrical charge to solutions, allowing them to wrap conductive surfaces with an effective and even coverage. Double-charged particles envelope all surfaces whether they're shadowed, vertical or underneath. Its standard 3-in-1 nozzle allows the user to match particle's size to the chemical's required dwell time.

- 2.25 gallon easy fill tank can tackle large tasks
- Ideal for disinfecting, sanitizing, and odour removal
- Uses less solution
- Touchless application
- Reduces cross-contamination
- Designed to meet dwell time
- Cordless convenience allows for effortless movement from room to room
- Refillable tank allows you coat up to 23,000 ft² on 40 micron setting
- Easy to implement & cost effective
