

BRASS SAE 45° INVERTED FLARE (BINV-FLR)

Applications:

Automotive braking systems, fuel lines, transmission coolant lines, LP-Gas. Use with Welded Steel Hydraulic Tube, Copper, Aluminum tube that can be flared. Use steel nut only with Steel brake lines not on aluminum tube.

Working Pressure:

Dash Size	Tube O.D.	PSI	Tube Wall
-2	1/8	2800	.030
-3	3/16	1900	.030
-4	1/4	1400	.030
-5	5/16	1200	.032
-6	3/8	1000	.032
-8	1/2	750	.032
-10	5/8	650	.035
-12	3/4	550	.035

Working Temperature:

-65°F (-54°C) to 250°F (120°C)
