## COMPATIBLE DIMMERS

| Brand | Model |  |
| :---: | :---: | :---: |
| LUTRON | DVSTV, DVTV | NOTE: The above table shows dimmers that have been tested and have demonstrated proper operation under normal conditions, Each installation being unique, various factors such as load, common neutrals or other electrical products on the circuit can in certain instances, cause variance in system performance. Read and comply to the dimmer installation instructions. Consult LED products. Older dimmers designed for incandescent products may cause erratic operation. Some dimmers may require more than one product for stable operation. The maximum number of products is determined by the dimmer wattage rating with LEDs.Be careful, these dimmers have different ratings depending on the product type. Again, refer to the dimmer installation instructions. |
