ENERGY STAR 5.0 PRODUCT CHANGES

Product Changes

Changes to EPA regulations and Energy Star efficiency standards for 2024 will affect the window AC product lineup. Current Energy Star models will no longer qualify under the new regulations and cannot be advertised as Energy Star after October 2023.

PRODUCT CLASS	Version 4.0 CEER	Version 5.0 CEER (eff. 10/30/23)

PERFECT AIRE ROOM AIR CONDITIONING PRODUCTS

Your trusted partner in home comfort

People spend around 90% of their time indoors between their homes and workplaces. Most people think of room air conditioning (RAC) systems for only providing cool air on hot days. But, a well-designed (RAC) system does more than just bring comfort to indoor spaces; it contributes to healthier Indoor Air Quality (IAQ). Improving air circulation and ventilation is essential to ensure that indoor environments are safe and comfortable.

Perfect Aire is your single-source solution for all your RAC needs. With a full range of dehumidifiers, window air conditioners, through-the-wall units, portable air conditioners, and accessories, we have everything to make your space a more comfortable place to live or work. You'll also find innovative designs and special features like dual-hose portable ACs, U-shape window ACs, and Wi-Fi® enabled models that with your smart home devices. Our knowledgeable, friendly, US based customer service team is here to help find the solution that works for you.

COMFORT... **BUILT TO LAST***

1 YEAR FULL REPLACEMENT WARRANTY

We stand behind the quality of our products and their performance with a full replacement warranty. The warranty covers defects in materials or workmanship under normal use and maintenance for 1 year from the date of purchase.

DEHUMIDIFIERS

Air feeling sticky?

Do you have a musty, wet or flooded basement? A humid garage? Damp air – over 60% humidity level – can be very uncomfortable and can even be damaging to your health and home. Dehumidifiers are perfect for reducing and controlling the humidity of your home or business. They can help reduce allergens by preventing mold, dust mites, and mildew growth; prevent structural damage due to built-up moisture; and even reduce energy costs by helping air conditioners run more efficiently.

CONTINUOUS DRAINAGE

Run a garden hose (not included) to a nearby floor drain, or eject water up to 16 vertical feet with a built-in pump (pump only available with 3PFDP50 and 1PDP60)

ADJUSTABLE DIGITAL HUMIDISTAT

Provides precise humidity control

AUTOMATIC DEFROST

Prevents evaporator from freezing

AUTOMATIC SHUT OFF

Unit stops running when the bucket is full to avoid messy overflow

COMFORT MODE

Adjusts to an ideal humidity level, based on room temperature

ADDITIONAL FEATURES

- Low temperature operation (down to 41° F)
- 24-hour programmable timer
- Ultra-quiet operation
- Easy roll casters
- Bucket full indicator
- Reusable filter

CHOOSING THE RIGHT DEHUMIDIFIER

COMMERCIAL DEHUMIDIFIERS

Exceptional environmental protection!

Whether you have flooding to clean up or wish to prevent moisture-related damage, our commercial dehumidifiers quickly and efficiently allow you to reach and maintain a healthy level of relative humidity. High airflow rates, durable construction, ease of transport, and overall coverage area capabilities make these units ideal for a variety of businesses such as warehouses, manufacturing plants, retail stores, hotel suites, restaurants, and gyms.

FEATURES

- Fixed metal handle
- Polyethylene housing
- Easy-access slide-out washable filter
- 9.75 ft. power cord
- 39 ft. hose for ejector pump
- Heavy duty "never-flat" tires
- Built-in duct attachment ring (hose sold separately)
- Running time recorder

NOTE: Cannot be sold in California or Washington

WINDOW AC

Proof that power and efficiency coexist.

Staying cool in the summer should be easy and affordable — that’s where a window AC comes into play. Window ACs are the perfect solution for spaces that do not have central air or where central air just isn’t cutting it.

CHOOSING THE RIGHT WINDOW AC

- 1 Measure area of the room**
(room length × room width = sq. ft.)
- 2 Match room size with correct BTUs**
(see chart on 13)
- 3 Make any adjustments**
Increase BTU 10% for sunny rooms. Decrease BTU 10% for shaded rooms. Add 600 BTUs for each additional person over two. Add 4,000 BTUs if unit is used in kitchen.
- 4 Measure window opening**
(height and width)

5K WINDOW AC

- Adjustable temperature settings
- Slide-out washable filter
- 2-speed rotary dials
- 2-way air direction control
- Window mounting kit

6K-25K BTU WINDOW AC

- Electronic controls
- Full range air direction control
- Temperature output range of 62°F-86°F (17°C-30°C)
- Follow-Me remote control acts as a portable thermostat
- Auto, Sleep, Dry & Energy Saver modes
- 24-hour timer
- Auto restart function
- Easy-access washable filter
- Window mounting kit included
- Cool/Heat models provide supplemental heat in cool climates (*4PACH8000, 4PACH12000, 4PACH18000, 4PACH25000*)

U-SHAPED SMART WINDOW AC

Let the fresh air in!

This unique U-shaped AC makes opening and closing your windows possible even while installed. The patented inverter technology achieves more than 35% energy savings and more precise temperature control* compared to traditional AC units. It also helps blocks noise coming from the compressor outside, allowing ultra-quiet operation as low as 42dB. Includes a quick-snap support bracket** and can be installed in 3 simple steps.

UNIQUE U-SHAPED DESIGN allows open/close window usage

WIRELESS SMART CONTROL

All Perfect Aire smart Wi-Fi® enabled window ACs run on the Perfect Home app, so you can control your AC with your smartphone. Or, control with voice commands by connecting your AC to your Google Assistant or Amazon Alexa smart home speaker. Either way, you can customize the settings to your comfort level with special features such as:

- Share a single device with up to 20 household accounts
- Set a 7 day/24 hour schedule to turn the unit on and off when you want.
- Sleep Curve lets you customize the temperature range by the hour for your best night's sleep.
- Geofencing adjusts the machine's settings depending on the location of your phone's GPS.

*Compared to Federal minimum requirement.

**For single or double hung windows 23"-36"; Minimal height of 14".

WINDOW AC SUPPORT BRACKET

FEATURES

- Reduces pressure and weight on window sill
- For single or double hung windows only, 24 to 38 inches wide
- Easy to install, no drilling required
- Commercial duty—supports up to 200 lbs.
- Commonly used with units up to 25,000 BTU
- Fits wall thickness from 4 to 11 inches

EASY INDOOR INSTALLATION

- Minimizes risk of damage to window, exterior wall, or siding
- All necessary hardware included
- Durable and weather-resistant

THROUGH-THE-WALL AC

Keep your cool when things heat up.

Through-the-wall ACs are a great solution for people with existing through-the-wall infrastructure or someone looking for a cooling solution that will not obstruct parts of a window.

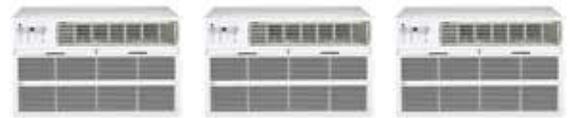

Our units all feature follow-me remotes that allow you to control temperature anywhere in the room and multiple, convenient functions like auto, sleep, dry and energy saver mode. Even better, some of units offer supplemental electric heat for cold days or year-round use.

FEATURES

- Electronic controls
- Full range air direction control
- Temperature output range of 62°F–86°F (17°C–30°C)
- Auto, Sleep, Dry & Energy Saver modes
- Full function remote control
- 24-hour timer
- Auto restart function
- Slide-out filter access
- Follow Me function remote thermostat feature for total room coverage
- Fits standard-size wall sleeve (not included)

PORTABLE AC

Wishing your air conditioner could follow you from room to room?

Portable air conditioners do just that! Perfect for quick cooling, temporary use or supplemental cooling, portable air conditioners are compact coolers that can be rolled from room to room. They use a window vent hose for any necessary ventilation, which can be installed in vertical and horizontal sliding windows.

FEATURES

- Electronic controls
- Temperature output range of 62°F–86°F (17°C–30°C)
- Bucketless drain system
- Auto restart function
- Easy to install & operate
- Sleep mode
- Easy access washable filter
- Full function remote control
- Easy roll casters
- Variable cooling speeds
- Slider kit & quick connect vent hose included
- Follow Me function remote thermostat feature for total room coverage
- CEC Compliant

QUICK CONNECT INSTALLATION KIT (included with all Portable units)

Window Slider with Exhaust Opening

59" Exhaust Hose

Insulation foam strips for use:

- Between slider & window
- Between windows

CHOOSING THE RIGHT PORTABLE AC

- 1 Measure area of the room:** (room length × room width = sq. ft.)
- 2 Match room size with correct BTUs:**
 190 sq. ft. (10' × 19' room) 9,000 BTUs | 215 sq. ft. (12' × 18' room) 10,000 BTUs
 245 sq. ft. (12' × 20' room) 12,000 BTUs | 290 sq. ft. (16' × 18' room) 14,000 BTUs
- 3 Make any adjustments:** Increase BTU 10% for sunny rooms. Decrease BTU 10% for shaded rooms.
 Add 600 BTUs for each additional person over two. Add 4,000 BTUs if unit is used in kitchen.
- 4 Determine slider configuration:**
 Fits horizontal windows 26.5" - 48" wide
 Fits vertical windows 26.5" - 48" tall

PORTABLE AC REPLACEMENT WINDOW EXHAUST KIT

FEATURES

- Replacement window vent kit with hose, adapter, and sealing board
- Works with clockwise and counterclockwise hoses
- Connects to existing coupler on back of portable ACs

PORTV513

UPC 842149091231

- Fits most portable ACs
- Replaces 5.13 in. diameter exhaust hose

PORTV592

UPC 842149091248

- Fits most portable ACs
- Replaces 5.92 in. diameter exhaust hose

Requires original hose collar.

REPLACEMENT KIT INCLUDES

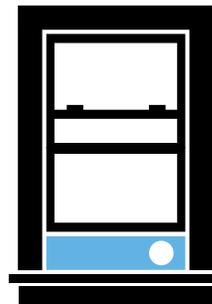

1 Hose (59 in.)
(Original portable air conditioner hose collar required)

1 Hose Adapter

2 Sealing Boards
and 1 Locking Pin

THESE KITS FIT SINGLE-HUNG, DOUBLE-HUNG OR SLIDING WINDOWS

Fits window openings:
Horizontal (in.): 6½-4(H) × 26½-38(W)
Vertical (in.): 26½-38(H) × 6½(W)

PORTABLE SPOT COOLER

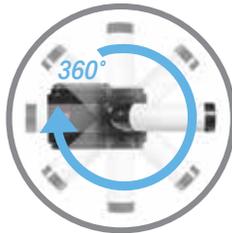

No installation required – just plug in and enjoy the cool air!

The ProAire 5,300 BTU Portable Spot Cooler provides instant cooling to enhance your comfort and productivity, ideal for patios or decks, workshops, construction sites, woodworking shops, garages, and farms! No installation required- just plug in and enjoy the cool air!

FEATURES

- Exhaust fan dissipates heat for added comfort
- Auto shut off when the tank is full
- Heavy duty casters for easy transport
- Compressor overload shut-off protection
- Washable, reusable air filter
- Perfect for hot summer days with operation up to 109°F

ADJUSTABLE BLOWER HOSE EXTENDS AND BENDS TO DIRECT AIR WHERE NEEDED.

360° Swivel Hose

Hose Extends and Bends

2 WAYS TO DRAIN

Easy empty bucket

Continuous drainage with 6' hose included

EVAPORATIVE COOLER

Keep cool in the driest, most arid climates.

By using the power of evaporation to cool, these units are an eco-friendly, health and cost-effective alternative to cool an indoor or outdoor space.

These "refrigerant-free" coolers work by drawing in warm, dry air across a water-soaked media filter. The absorption of heat from the water creates cool air, which is then pushed out to cool your area. This process uses about 75% less energy than a standard AC.

FEATURES

- Easy refill with side tilting access door
- Large capacity tank for less refills
- Fan only mode for all season use
- Easy drain bucket
- Wheels for portability
- Water level viewing window on tank
- Wide angle internal oscillation
- Full function remote
- Include 2 ice packs for more cooling power

MISTING FAN

Relax and enjoy the outdoors in comfort.

While a regular fan simply cools the air through a breeze, misting fans can cool the air more significantly (10-15°) by releasing water mist in the air.

Misting fans are most effective in hot, dry climates and use much less energy than standard air conditioners. The mist produced can also improve air quality by reducing dust and smog, great for work sites generating a lot of dust particles. Don't want mist? No problem. The water valve can be shut-off to operate the unit as a regular fan when needed.

FEATURES

- Weather resistant housing
- Water resistant fan motor
- Powerful 18" fan blade
- Brass misting nozzles produce ultra-fine cooling mist
- Oscillates for maximum circulation
- Attaches to garden hose for continuous water supply
- GFCI safety plug

IDEAL FOR:

- Outdoor Work Areas
- Poolside
- Garages
- Backyards and Front Porches
- Camping
- Workshops & Warehouses
- Schools, Daycares and Playgrounds
- Special Events
- Barns

Easy to use controls

Garden hose connection with water shut-off valve

5' power cord including GFCI safety plug for safe outdoor use

Domestic orders only, while supplies last.
