

The most hygienic hand dryer is 30% quieter*

Aerodynamic motor package

Redesigned impeller and inner diffuser enable sound-optimized airflow paths.

Precision air apertures

Reduction in slot size from 0.8mm to 0.55mm reduces overall noise and maintains air velocity.

Reprogrammed Dyson digital motor V4

Precisely tuned to 1000W to draw less air through the machine – reducing sound from turbulence.

With acoustic engineering improvements across the machine, loudness testing shows that the Dyson Airblade V hand dryer is 30% quieter than its predecessor.

Limited time offer:

Buy 4 Airblade V and get a FREE AM09 or V6 Cord-free vacuum.

December 1st – December 31st 2017
